Comment Of The Day

# THE SEAWAY

THE new, proud St Lawrence Seaway which the Queen and President Eisenhower jointly open on Friday promises as profound a revolution for the industrial and engricultural the opening of the Suez Canal provided for the Far East and its trade with Europe: This much seems certain from the first few weeks of its existence. For now ships of all nations, of the greatest industrial areas in the world on the shores of the Great Lakes.

Britain had similar hopes and fears - when the Man-- chester ship canal opened for business. The great ports of London and Liverpool, it was said, would be eclipsed; by the new inland port situated in the industrial North. But if this threat failed to materialise to any significant extent in the United Kingdom, it would be short-sighted to predict such a future for the St Lawrence Scawny.

Distances being on such a greater scale in North America, the Seaway promises to cut transport costs appreciably and climinate much overland haulage. The carriage of bulk ore and grains along the scaway will thus be facilitated and ports direct to the markets worst for ten years and caused of the world. Imports too 'great losses."-Reuter. will be carried straight to the vast centres of production. The economy the area will be transformed. New docklands will grow up. Road and rail transport will be affected. And the big ports of the north-east const will receive a smaller share of incoming and outgoing cargoes.

THE Seaway opens at a time of acute unemployment in Canada. Fortunately this is declining now, though the jobless once numbered almost 10 per cent of the working populaby British standards, but ment, the creation of new openings of employment on the northern shores of the sary." Lakes should benefit the Dominion considerably.

navigable water- UPI. for all but the biggest vessels in the world. Perhaps the only ones that will be excluded except for the big passenger liners, which would have no reason to use the waterway anyway, will be the giant tankers that are now being constructed. But all freight-carrying ships including the bulk ore and grain carriers will be able to use this "stepladder" to the Great Lakes. Government forces have

# MONKEY SHOT DEAD ON GOVT ORDERS

London, June 23. MONKEY being taken to A laboratory for experiments escaped today and was shot dead on government orders. A Ministry of Supply spokesman denied earlier reports that the monkey was infected tream previous experiments on germ warfare.

He said it was not infected in any way and had not been used for experiments. The Ministry warned police

that the animal was dangerous and farmers and police in the area of the south coast town of Worthing set out to search for it. Farmer Peter Bastable, 24, spotted it in a tree

and shot it dead. The monkey, which weighed 20 pounds and was seven-yearold, was being taken from the Ministry's micro-biological research establishment at Salisbury to an animal farm near Worthing. From there it was going to a university. It escaped when doors of a truck flew open.

The Ministry said the monkey was dangerous to the public only in the sense that any or undomesticated animal was dangerous.

The body was covered and guarded, after Bastable shot it, until Ministry officials collected it-UPL

# Dorothy Malone To Marry

By ANDREW SLOAN Dorothy Malone, Hollywood actress with a liking for English grammar, arrived here the other day after completing her part in a movie being made in Japan.

But the movie, "The Last Voyage," provided Dorothy with some of her worst moments in er screen enreer.

Yesterday Dorothy told me about the part she had to play in the film, which concerns mainly, the liner He de France. The ship was hired for a fantastic sum of money from the Japanese shipyard who had bought her for

The film crew systematically blow up and "sink" the big liner, filling her with water, setting off dynamite and starting fires.

During one of these scenes, Dorothy found herself trapped under a pile of debris and jagged steel. With the temperature in the region of 120 degrees the actress began to get worried and she felt the ship being sunk. "I was really frightened. I didn't know whether I would get burned to death, electrocuted or go down with the ship," she said recalling those anxious moments.

DISCOURAGED

Born in Dalias, Texas, the 5 feet 61/2 inches blonde, said she should be in the Colony for about a week to 10 days, "but I am going to try and stretch that to two weeks or

She has only been in the It was after the war that Henri Colony for a little over a day and a half, but has seen enough to realise that she can easily go broke trying to save her money. Dorothy plans to tell her friends in America. "Save your pennies and come on over lo Hongkong,"

"But I wish Hongkong wasn' so far away from America, think that has discouraged quite a few travellers," she said. I asked Dorothy if she liked being a star or not, and she replied, "Well it has its advontages and its drawbacks, you know. I have to work long hours and put in a lot of hard

work when working on a movie. But I love to travel. "When we travel, we travel under real and glamorous circumstances. The nice thing about it is to arrive somewhere and the people know you. That way you don't feel like a

stranger." GENERAL RULE

As a general rule, Dorothy does not worry about her health, but when she hears about a disease "for the next 10 minutes I have all the symptoms and quite convince myself that I have it. Then it's all over and I forget

about it." Asked what she would like to do if she could start again, she replied, "Well I'm a little like a cat. I've always wanted nine lives and I would do everything different each time."

Dorothy, an Oscar award winner for her performance in "Written on the Wind," said her most satisfying performance was in the Alm "Battle Cry." "I have made so many movies that I have stopped bothering to count them, because some years I do only one, and I can remember one year I completed

eight of them," If she had not been discovered in college in Dallas by a talent scout, Dorothy said she would have liked to be a nurse, a housewife or an English teacher, or even a dress designer.

SPECIAL LICENCE

Well now the secret is out, Dorothy and actor Jacques Bergerse have applied to the Marriage Registry in Hong-knew, confirming the remours that have been flying around town, even before they had arrived in the Colony.

They have applied for a special icence to the Governor, allowing them to marry within the normal period. I tearned too, although the couple declined to make any comment yesterday, that there was a possibility o a church wedding.

# 152 American Women Invade HK

may have seen a number of American women in Hongkong last week, with pale green tickets pinned to them inscribed. "GFWC".

They are all members of the biggest group ever to arrive in the Colony and are a 152-strong ness in the course of his contingent of the General Federation of Women's Clubs.

They were here on a short visit as part of a world tour to tinguished house of French foster better understanding and perfumiers and obviously thoroughly enjoys his occupa-tion which takes him all over friendship between women of all Leading the group is Misa the world-"To Cuba, India,

Chloe Glifford, the President ci the Federation and a truly remarkable woman.

### Political Science

Born in Lexington, Kentucky, Miss Gifford studied political science and sociology, carned a law degree and has a long record of church and community service, completing jobs with the same energy and efficiency with which she begins them and topping it all she has a keen sense of umour.

She wanted to become a couragement when she was nd- Pakistan, Austria and France.

The Puchs affair broke out in 1550 at a time when Mc-Carthyian was rising in the United States. year, the world learned with

of the Harwell Atomic Centre's theoretical physics laboratory, had been arrested for transmitting scientific secrets to a tortign power—the USSR.
The scientist left Germany after the advent of Nazism and had taken refuge in Britain in

In 1942, the British Governdesperately Duke was asked to bring the ment said: "The well-known physicists capable of contributroyal yacht 12 feet ahead, but he atomic scientist, Dr Klaus Fuchs, ing to the development of shook his head and used his own who was imprisoned for some Allied research and found Fuchs years in England for political in an internment camp for

### Sent To US

Fuens was simply asked to sign the "Secrets Act," an oath asked of any official whose work the touches in any way whatever Western journalists were anned from meeting him. To the US to participate in experiments at the famous Los Alumos Atomic Centre where the Hiroshima and Nagasaki

> bombs were born. Sometime after the end of the war the American counter-intelligence agency gave Scotland Yard some disturbing information about Fuchs. It was established that Fuchs had given information to Soviet agents over four periods; in 1943 from Birmingham, 1943 to 1944 from New York, in 1945 from Boston and in 1947 in Britain.

His trial showed the world the unexpected and shocking picture of a scientist who was both an honest man and a spy with motives outside every criterion of common sense, of a scientist torn between his duty as a British subject and what he conceived as his duty to humanity.

### New Doubts

Fuchs had feared that the United States and Britain would let the USSR absorb the German - Army blows alone and would collapse, taking with it the last hope of socialism. He had feared that being in sole possession of the terrible atomic weapons the US would be tempted to use them to

crush its rival. However the first postwar years and the bloody Soviet oppression in Central Europe led to new doubts in Fuchs' with his contacts and refused

Several historians who kept close eye on the affair have since maintained that Soviet agents denounced Fuchs to the US Secret Service once they became convinced that they hlm.—AFP.

# Tries A For His Heart

New York, June 23. A 65-year-old man today waited to try on a holster for his heart.

Herman Nisonoff was dis- | radio and "not too much of a charged from a hospital problem. yesterday carrying a small, blue-and-gray box that was connected by

wires to his heart. The two-pound electronic device was his insurance against a signal blockage that otherwise would cause his heart to falter. The electronic "pacemaker" is designed to take over when that olockade occurs.

Connected to Nisonoff's heart by a long wire that enters a vein in his neck, it pulses two or three volts of electricity to the heart every minute. The pulses are too weak to

have any effect when the

heart is functioning normally but they shock the heart back into action when it falters. "The heart pacer delivers barely enough power to light a flashlight bulb," explained Dr Seymour Furman, resident surgeon of Monteflore Hospital.

### No Rush

"But it's enough to keep a man

Nisonoff left the hospital yesmind. He decided to break terday and returned to his home in the Bronx planning to to deliver further informa- get a leather shoulder holster for the life-saving device. Mrs Nisonoff said today that husband has been offered a holster that might fit.

If it doesn't, she said, he will order onc. But there's no rush, She 50 yards away. Both Items could get nothing more from said the heart pacer is only were discovered by different about the size of a transistor people,-AFP.

"He can put it in a sports jacket pocket and nobody would know the difference, she added.

Nisonoff's illness started 1 months ago. Mrs Nisonoff said It was n "nightmare." He was often bedridden and could never tell when he might black out because of the faltering heartbeat. "Thank God he's fine now."

she sald today. Nisonoff said he hopes to go back to his work as a silverware salesman.

Dr Furman said it may be a little while before Nisonoff can become completely active again, but he said he believed Nisonoff will be able to do 90 per cent of what any other man his age could undertake.--UPT.

### Jewels Found

Geneva, June 23.

Jewels from a collection belonging to King Ibn Saud of Saudi Arabia reported as lost, were found today in the woods where the jeweller, transporting the precious stones by automobile, had stopped during his trip from Basle to Geneva.

The case which had contained the jewels was found about

# GAS SUBDUE RIOTERS

Springfield, Miss., June 23. Police and prison guards using a bulldozer, steelcutting torches and tear gas today hacked their way into a prison hospital wing here in which rioting convicts had held five guards hostage for 14 hours.

The hostages were released as the assault began. The bulldozer crumpled a corner wall of the 100-foot long building used to house 106 prisoners; guards battered down a steel door on the other side and then two other groups also rushed in.

An hour after the assault began the authorities said that all the rebels were once more in custody.

The riot in the hospital began when inmates rounded up the five guards at knife-point and retreated into the wing, using cellbars for barricades. --Reuter.

# Top Priced "Strad"

A Stradivarius violin known as the "Dancia" was sold in Lon-don today for what is believed to be the record price of

It had been sent for sale by | £3.300 in 1957. Mr Siegfried Kahl, 78-year-old -The Dancla, named after German diamond merchant liv-ing in Geneva, and was bought who owned it for over 20 years by Mr Jim Reno, a Manchester, in the last century, was made by Antonio Stradivari The previous record price for Cremona in 1703.—China Mail Stradivarius in London was Special.

### What makes a woman magnetic?

# Helena Rubinstein real Silk Face Powder

TITELENA RUBINSTEIN created real Silk Face Powder from pure atomised silk — because skin and silk have a natural affirmity. Both are living substances strongly magnetic to each other. That is why real Silk Face Powder has a cling that simply cannot be equalled! AND for dry skins --- Helena Rubinstein's Silk Face Powder Special - formulated to retain moisture, cling longer. Real Silk Face Powder comes in 9 flattering skin-tones, including enchanting new Bed of Roses.

But she failed in her title bid played searcely any first-class | because she lacked the tactical tennis during the next two knowledge of her sensoned opponent. Brough varied her In 1952 she lost her first length and spin at every opbuby, prematurely born. The portunity and took the first set following year she had a 7-5.

### Limitations

It was tough getting back to In the second set, "Broughie" the top. Yet in 1954 Beverly came within a point of leading was elected No. 3 in the United 5-2. Then fighting Fleitz re-States-her highest place in tallated with chalk-raising the national rankings. The drives that gave her a 8-4 lead. following year she was third Again Brough exploited her opseed at Wimbledon and reached ponent's limitations at the net and won this centre court thriller 7-5, 8-6.

Beverly is a better tactician now. She still lacks overhead and volleying power and she is still suspect against the short low ball, But that two-sided forehand remains a potential the virtual certainty of a place in the final, But she had to natch-winner.

It gives her an immediate ad-vantage. Waiting for the service, she keeps both hands on her racket; then decides which to use. The method increases her reach and enables her to disguise direction.

"I was born ambidextrous," she explains. "But I tried hard to cultivate a backhand shot with my right hand when I began to play tennis as a small child.

"I looked so awkward that my father told me to stop trying to play such an unnatural shot. So I used my left hand instead —and ever since I've never given a backhand shot a thought." at a sprightly 28, she set out

Beverly, born at Providence Rhode Island, was 11 years old when she began training to beobtained from the Secre- over world champion Althea come a champion. Her English-tury's Office, Alexandra Gibson and such leading players born father, Director of Recreation at Santa Monica, California gave her her first tennis lesson and saw her develop rapidly into the most powerful baseliner in American tennis. She won the U.S. Junior Championship and by the age of 18 was placed fifth in the national rankings.

### Ballyhoo Girl

Mrs .Fleitz became internationally famous in 1951. She mother has not captured the was then the ballyhoo girl of title for 45 years, the last being tennis and the most-photographed player of the yearbers, who won it for Britain the successor in frills and furbelows of 1950's "Gorgeous

Gussie" Moran. Wimbledon fans loved this slim, attractive brunette, with the lers of a ballering and two short pig-talls framing a piquant, freekled face. She wore becoming nylon costumes or sensationally brief shorts. yet was completely unsophisileated and charming on

court. called her That Wimbledon debut was privileges to be brought into notable in other ways. For the line with those of overseas immaculate Bev showed that players. her tennis was nimost as attractive as her figure.

She lost to Doris Hart-who went on to become championin the semi-finals. But before that she beat the 1950 runnerup, Margaret du Pont, and an unknown girl-Althea Gibson, now the champion she aims to succeed at Wimbledon.

From RONALD BOXALL

London, June 23.

mediately involved.

titled to a share in the increas-

Britain said the Prime Minister in a weekend speech has pulled off a "unique double."

"The reserves are stronger," said Mr Macmillan. "Our trading position is more healthy and world confidence in the pound is very high. Morcover we have never enjoyed 18 months of such price stability at home in the whole of the postwar period. But we have done something more than achieve a stable cost of living. Now we have side by side stable prices and full employment."

Britain has arrived at that competition is now much more deed it's possible that if it went happy state of affairs which has been the objective even relling at a loss to keep hinder the day to day working nately not. For though there has been a downward pressure on prices over recent months the effect of this is not likely to be permanent.

### Competition

As a recent survey of Industrial prospects showed an upswing in output, orders were accompanied by generally lower selling prices. But this was not due to lower costs of production, Indeed, the costs for per unit of output were somewhat higher and these were being met out of profits.

Several reasons have been adduced for this. One is that firms have been using up stocks 

# ANOTHER MOVE AGAINST

Manchester, June 23. The oldest established firm in the United Kingdom textile merchanting trade told all its customers today that the directors had decided to handle only cloth which had been spun, woven and finished in Great

# DISPLAY FRANCE OF JETS IN

Paris. TWO hundred thousand people watched jet aircraft from both sides of the Iron Curtain stage a spectacular finale to the 23rd Paris International Air Salon, recently.

Aviation observers agreed that the Salon, which began on June 12, was the biggest show Atomic Submarine of its kind ever held as 15 nations joined France in displaying the latest in civil, and Programme For UK military aircraft.

British. French and American D sion in service by 1969 acrobatic teams the top thrills of the day at Le Bourget sirport. All traffic at the airport was diverted to Orly airport, south of Paris, to prevent interference 2009 w 24.23 | with the air show.

> About 350 aircraft took part ranging in size from Belgian's Fairey Tips Nipper, with a wing span of five metres to the huge United States Air Force transport, the Douglas Curoomaster which measures 54 metres from wingtip to wingtip.

### MOST APPLAUDED

The show was a public repeat of the display staged for an invited audience and most of the same alreraft took part.

Sixteen Hawker Hunters from the Royal Air Forces No. 111 squadron were among the most applauded of the jet fighter 1100 at 17.70 displays.

> They competed for favour States Air Force "Skyblazer" acrobatic team flying F-100 Supersabres and a group of French airmen flying 12 Mystere IV fighters.

The Soviet Union's Tupolev 104 jet airliner was among the top civil aircraft flying in the an extra £1 million and will be show. It went through its paces along with Britain's De Haviland Comet IV and Bristol Bri-

Mr T. L. Yang at Central-im-

The prosecution stated that in a raid at 458 Queen's Hoad West on Monday, defendant was found with 105 packets of heroin and one packet of barblione in his possession. Defendant had 10 previous convictions, four of a similar

### Fined \$1,000

Yue Kam-wah, 39, hawker, was fined \$1,000 or the alterna-tive of four months' gaol when he was found guilty of possession of heroin and escape from lawful custody by Mr. I. T. Morris at Central this morning. A charge for assaulting a police constable was dismissed when Mr Morris ruled that there was insufficient evidence to support the charge.

Police constable Lo Yat-ping testified that he went with a party of constables to an unnumbered hut in Poktulam Village on May 30. He saw five or six people

sitting or squatting around two lighted lamps. When they saw the Police, they tried to dash out of the

Witness said he arrested the defendant outside the hut after a short chase. Six packets of herein were found on him. While being cautioned, the defendant suddenly hit him

on the nose and ran away.

# SUSPEND **OPERATIONS**

The acting chairman of Hong-kong Mines Ltd, said this morning that the company had been forced to suspend opera-tions due to a fall in the price of lead. The price fell at the end of June, 1958 to £70 per ton, a figure below mining

In his report to shareholders at the company's annual general meeting, Mr G. Abbass said the loss over the year was \$47,-416 owing to operations continuing under necessary restrictions.

Mr Abbass continued: "Your directors took into consideration inquiries from outside parties to operate the mine on a large scale as necessitated by the lead price now ruling, but so far no decision could be made," The directors of the company agreed to waive their fees for

the year. Mr C. A. Henderson was reelected a director, and Messrs Lowe, Bingham and Matthewreappointed auditors.

Mr George J. Gmelch, Vice-President for Freight Traffic of the Pacific Far East Line inc., of San Francisco, arrived this morning by PAA from Bangkok for a four-day business

His visit to the Colony begins a For East tour of his company's offices. He was met at the airport this morning by the Hongkong manager of the shipping line, Mr H. A. Grande, (right) who is seen welcoming Mr Gmeich to Hongkong. Accompanying Mr Gmelch was Mr. John C. Hardy, owner's Representative for the company in Hongkong.-China Mall Photo.

About 40 members of the Leung Family Association met the winner of last year's Miss Hongkong Exhibition, Louise Leung, when she arrived at Kai Tak today after three months in Taiwan.

As she stepped from the CAT

was carrying banners with "Welcome Home" on them. Miss Leung, 17, was also presented with a bouquet.

She said that during her stay in Taiwan she had entertained troops by singing and had visited soldiers' hospitals
